When selecting your booth, please note that the mall is divided into three separate sections. This gives management better control since visitors can be observed by personnel at the service desk as they move from one section to another.

When customers enter a section, they will be routed along one-way isles so they automatically go past each booth before they can exit from that section. Sections A and B are located in the new steel structure and Section C is housed in the original house.

Please make check payable to: PINE MOUNTAIN ANTIQUE MALL, INC.

I agree to price all of my merchandise so that authentic dealers can be given a 15% discount on the lowest ticket price. I understand that no crafts can be displayed (quilts are okay) and known reproductions must be identified as such. I realize that I am committed to a minimum lease of six months unless there is a waiting list for my booth. I agree to pay, in addition to booth rent, 12 1/2% management fee on all sales. I also understand that all sales must be handled by the Mall Sales Staff regardless of whether I am personally attending my booth. Although Mall Management is responsible for personal liability insurance, I realize that booth tenants are solely responsible for any insurance coverage that they desire on their merchandise. Credit card charges will be charged back to the dealers.
